

We give up our columns to-day to Mr. Clay's speech in the Senate on the subject of abolition, and we bespeak for it the careful consideration of every reader. The subject is one of vast importance; and the acknowledged reputation and patriotism of the speaker, as well as the prominent position he occupies in the councils of the nation, must of course give weight to opinions thus deliberately expressed. Mr. Clay's view of the subject is that of a statesman, whose enlarged and liberal mind comprehends a whole country—a country to whose prosperity and honor he has contributed more than any other man living.

We mentioned last week that Dr. Holmes had been arrested at this place as the supposed murderer of Tasche. The warrant was issued by Charles Adams, Esq. on complaint of Wm. Brown, a police officer from Montreal. The examination came up on Friday, but was continued to Saturday: when on full hearing and argument, the accused was committed, to wait the order of the President. The evidence was such as to leave no rational doubt as to the enormity of the transaction. In addition to Holmes' own declarations on the subject here, the affidavit of a girl at Sorel was introduced, stating that she was employed by Dr. H. and Mrs. Tasche to poison the deceased—that she went to Kamouraska for the purpose, and administered the poison, prepared by Holmes himself; but Tasche threw it up, and thus escaped. There was also the copy of a letter, written by Holmes, the day after his arrival here, to Geo. Van Ness, a student in his office, in which he acknowledges having killed Tasche privately. This letter covered one to Mrs. T. in which he deprecates not having communicated to her his intentions before going to Kamouraska, as she would have prevented him. He winds up, however, by inquiring after the dear little children, and inviting her to join him here. The whole tone and bearing of this letter indicates but too clearly the relationship subsisting between them. The facts disclosed at the coroner's inquest, will be found in another column; which, in connection with those here stated, certainly make this a case of most unparalleled atrocity.

The examination was conducted by Mr. Weston for the prosecution, and Geo. P. Marsh for the respondent.

The result of the application to the President will be known in a few days. As to this, however, we do not conceive that there can be any uncertainty.

Considerable excitement was produced on Tuesday evening by the announcement that Holmes had escaped from jail. It seems the keeper had, however, permitted him during a part of the day to occupy a room in the front part of the jail, attended by a trusty guard. Toward evening, however, just as they were about to conduct him to the cell, he managed to give them the slip, and for something like an hour eluded the pursuit. Sheriff Allen, however, was soon on the track, and at length halted him in Parody's hayloft. On finding himself discovered, Holmes snatched his pistol—whether at Allen or himself, it is not certain; but we are inclined to believe the latter. He is now in the dungeon—which, by the way is nearly as bad as the debtor's room; and that, we need not here repeat, is a disgrace to the nation, and a foul reproach to the county of Chittenden, in particular.

The Great Western arrived at N. York on Saturday. It brings nothing of importance, however. It is now positively ascertained that the Queen is to marry her cousin, Prince Albert, son of the reigning Duke of Saxony, who is said to be very handsome, and about 22 years of age.

NEW ORLEANS, Feb. 7. An arrival from Havana, with dates to the 29th ult. brings intelligence of the arrival of a French fleet in the West India Seas with ten thousand troops, destined to act against Mexico. The fleet had been spoken with off Martinique. About a week previous two English seventy-fours and two frigates arrived at Havana from Vera Cruz.

It was reported that the English Admiral expected to be joined immediately by a large fleet from England. There were many French vessels of war in the port of Havana, and scarcely a day passed without the arrival or departure of some French vessel of war being announced. The presence of so many vessels made every thing high in the provision market.

It is reported, by way of New Orleans, that the Mexican government has ceded the Island of Yucatan to England, in payment of the debt due that country.

**EARTHQUAKE AT MARTINIQUE.**—A terrible earthquake visited the island of Martinique, on the 11th January, which spread havoc and ruin over the whole French colony. The town of Port Royal appears to have suffered the most of any of the towns. Numbers of buildings were destroyed, and multitudes of lives lost. The last shock of the earthquake left scarcely a building standing, and nearly the whole city was overwhelmed. Four thousand

persons, it is supposed, were buried beneath the ruins—of these three hundred had been withdrawn from the wreck and rubbish.—At St. Pierre, the shock was not so severe as at Port Royal, but several houses were thrown down.

**WHO SENATOR FROM MISSISSIPPI.**—The Legislature of Mississippi have elected Mr. HENDERSON, (Whig) by a majority of five votes, to fill the vacancy in the U. S. Senate, occasioned by the resignation of R. J. WALKER, (Loco Foco.)

**WE** were highly pleased while in Burlington with a visit to our friend, Stacy's Reading Room. We found all the leading periodicals in the Union, upon his table, arranged with an order and neatness that is at the same time convenient and elegant. It is an ornament to the village, and we hope our Loco Foco friends will not fail to patronize it.—*Lamette Express.*

**FIRE AT EX-EX.**—On Tuesday evening, two barns, containing about fifty tons of hay, together with a quantity of grain the property of WESLEY HAZELTON, of that place, were entirely destroyed by fire.—There was a small insurance, but not sufficient to cover the loss which was large. The fire was the result of accident, the hay having accidentally ignited from a lantern which Mr. Hazelton carried in his hand. He had barely time to remove his cattle and horses before the barn was enveloped in flames.—*Sentinel.*

**Gen. SCOTT** arrived at his post on Tuesday afternoon last, and proceeded the next day to Swanton.

Capt. Taylor and one company of U. S. troops left this post on Tuesday last for Albany Springs, to relieve Lieut. Rives, who has been ordered with his company to Swanton to reinforce that post.—*Plattsburgh Republican.*

**MAINE.**—PORTLAND, Feb. 15.—By the mail of this evening from Augusta, we have received the following intelligence: An express arrived at that place last night from the disorganized territory, bringing news that Mr. McIntire, the Land Agent, and six others, had been taken by the trespassers, and lodged in Frederickton Jail. It appears that when our force had reached the mouth of the Little Madawaska, the trespassers had crossed the line, and were embodied, about 300 strong, for resistance—that the Land Agent, with three others, went the next day to Foxherbert, about a mile and a half this side of the line, with the expectation of meeting there the warden of the disputed territory—and that during the night, the house where they were was surrounded, they were taken and carried off. Three messengers, also, were sent, one after another, the next day, to learn the fate of their companions, were taken. Col. Webster, John H. Pillsbury and G. G. Cushman, are said to be of the taken. Our men have retreated back to the St. Croix, where they are encamped. The Sheriff has returned to Augusta for further orders. Several of the leading trespassers have been taken and are to be brought to Bangor.

**BANGOR, Feb. 15, 5 P. M.**—In addition to the information which you must have received before this reaches you, touching the defeat of the force sent against the trespassers on the territory in dispute between Maine and their majesty's dominions, we are this moment informed by an express from the seat of war, that the Land Agent, together with two others have been taken and confined in Frederickton Jail.

Half past 8, p. m.—Hastings Strickland, Esq. Sheriff of the County of Penobscot, has just received orders to call out five hundred men and march forthwith; and J. P. Rogers Esq. of this city, leaves to-night for Frederickton, with orders to demand of Sir John Harve, the prisoners.

Gov. Harvey of New Brunswick has issued an order for a draft of one fourth of the 1st and 2d battalions of the county of Carlton, to hold themselves in readiness for actual service. A considerable military force has already been ordered to the disputed territory.

Gov. Fairfield has sent a message to the Legislature recounting the circumstances of the arrest of the Land Agent, and proposing to send a reinforcement of 300 men to the Aroostook.

**CANADA.**—On Friday morning last, in front of the new goal in Montreal, five more indictments, Charles Haden, Charles Delorme, Francis Nicolas, Pierre Remy Nabonne, and Amable Dumas, were laid before the court for the prominent part they had taken in the late rebellion. They were accompanied on the scaffold by several ministers of religion—Hindenburg, who professed himself a protestant, by Rev. Dr. Bellone, and the others by Roman Catholic Clergymen. The department of all was breathing their awful situation, except Hindenburg, who acted with a theatrical facility, that was utterly at variance with the solemnity of the occasion. He addressed a few words to the crowd, asserted that the cause in which he had been engaged was a good one, denied the right of the government to put him to death, and concluded by exclaiming *Vive la Liberte*. Nicolas also made a few remarks to his countrymen, but in a very different strain. He urged upon them attention to their religious duties, and acknowledged that the death he was about to undergo, was not undeserved. The others remained dumb with the spiritual consolations administered to them, till the fatal drop fell, and the whole were launched into eternity. "Hindenburg never once moved; there was no convulsive struggle indicating either life or suffering. Nicolas also, who was a tall powerful man, suffered apparently nothing. The others also made a quick transition, with the exception of Nabonne, who had but one hand, which he contrived to get loose, and with which he shifted the rope from its true position. He then caught hold of the edge of the drop, and drew himself forward until his feet rested upon the railing which had been newly erected below the platform, and not sufficiently in advance. The wretched sufferer was again quickly removed from this dreadful position, but again contrived to seize the point of the drop, and to rest his feet as before. Finally, however, he was so placed as to accomplish the fulfilment of his sentence, but we grieve to say, not without protracted suffering.—*Courier.*

**DR. RELF'S BOTANICAL DROPS.** IS one of the most efficacious compounds in the Materia Medica, for the cure of that class of inveterate diseases produced by an impure state of the blood, and a vitiated habit of the body, and usually exhibiting themselves in the form of Scrophula, Salt Rheum, Leprosy, St. Anthony's Fire, Freckles, Bores, (even when the bones are affected,) White Swellings, (if applied with Dr. Jebb's Liniment,) foul and obstinate Ulcers, Sore Legs and Erysipelas, in children, Scoury and Scrophulous Gout, Pimples or Carbuncled Faces, Festerling Eruptions, and General Taints throughout the body, in which last case the Drops often cure when Mercury fails. They are also the best Spring and Autumnal Physic to purify and cleanse the system from humors which frequently appear at these seasons of the year. They also aid the process of digestion, and by purifying the blood, prevent the secretion of malignant humors on the lungs. The Proprietor confidently relies upon the vast number of surprising cures effected by these Drops, not only in Boston and its vicinity, but throughout the Union, for the best proof of their excellence as an unfailing Alternative Medicine, in all the cases above specified.

This article has recently been pronounced by a physician of the first respectability, who had witnessed its surprising efficacy, as entitled, in his opinion to take the lead of all the popular articles known for the above complaints, and indeed it is fast gaining this point in public estimation, throughout the country. Price \$1 a Bottle, or six Bottles for \$5.

**Dr. Relf's ANTI-BILIOUS PILLS.** For Indigestion, Loss of Appetite, Lateness, Headache, Constiveness, Flatulence, Cholera, Bilious Affections, &c.

To comment on the efficacy of these Pills, after a successful experience of many years in England and America has established their reputation, is needless: Suffice it to observe, that for redundancy of Bile, Flatulence, Constiveness, Headache, &c. &c. they will undoubtedly prove far more serviceable than those drastic purges so frequently employed, and will not only at the same time tend to remove the offending cause by gentle motions, and strengthen the digestive organs, but improve the appetite and renovate the system. Price 50 cents.

**DR. RELF'S V-GETABLE SPECIFIC.** For Sick Headache, &c. Price 50 cents. k1 None genuine unless signed on the outside printed wrapper by the sole proprietor, T. KIDDER, immediate successor to the late Dr. W. T. Conway. For sale at his Counting Room, over No. 99, Court-street, near Concert Hall, Boston, and also by his special appointment, by J. & J. H. PECK & Co.

**Advertisement!** TO THE ASTHMATIC AND CONSUMPTIVE. THE most prevalent and fatal of all the diseases incident to civilized society—the Consumption—may generally be traced to the least alarming of disorders, a slight but neglected Cold! By estimation, it appears that ONE HUNDRED AND FIFTY THOUSAND persons die annually of the Consumption. Most of these dreadful results may be attributed to common Colds, and a negligent treatment of the harassing Cough that generally ensues, which is usually followed by difficult breathing, pain in the side, and at last Ulcerated Lungs. Violent and repeated Asthmatic attacks also bring on Consumptive symptoms. One or two dollars expended in the purchase of

**DR. RELF'S ASTHMATIC PILLS,** and a little attention to their timely administration, will usually ensure a mitigation of these disorders, and generally effect a cure. The Pills are also an easy and effectual remedy for the symptoms preceding and accompanying the Asthma and Consumption. For colds, coughs, difficulty of breathing, tightness and strictures across the chest, wheezing, pain in the side, spitting of blood, &c. **TO THE LADIES!** WHITE and sound Teeth are both an ornament and a blessing. The best security for their advantage is to be found in the use of the

**BRITISH ANTI-SEPTIC DENTIFRICE.** This elegant Tooth Powder, with a very little use, eradicates the Scum in the gums, and prevents the accumulation of Tartar, which not only blackens, but loosens the teeth, and accelerates their decay. The Dentifrice thus removes the prevailing causes of offensive breath, preserves the healthiness and firmness of the gums, and renders the teeth beautifully white. Price 50 cents. k2
